

# Invoice for a Daily Contract

If this is your first time invoicing, feel free to contact RegWerks at 888-847-9470 or via email at [support@regwerks.zendesk.com](mailto:support@regwerks.zendesk.com) for assistance with the invoicing process.

1. Before beginning the invoicing process, ensure that **Pre-Pay** is turned on within the class' Contract; doing so allows you to set Due Dates when billing.
2. Select **Class** under the **Main** menu, and then double-click into the class for which invoices need to be generated.

4. The **Start Date** will auto-fill. Define the invoicing time frame by holding the **Ctrl key** (Windows) or the **Command key** (Mac) and by then clicking on each day which is included in this billing cycle.
  - **NOTE:** If billing on a weekly cycle, it is recommended that the invoicing time frame ends on the Sunday of the week in which fees are being billed.
  - Once all days are selected in the calendar, enter in the invoice **Due Date** to select the day on which payments will be due.
5. If there are no suspended registrations listed in the **Suspended Registrations** section, proceed to the next step.
  - If there are suspensions with partial amounts due for the invoice period, please note that the system will not automatically calculate these partial charges. Partial amounts due must be manually entered in the **Amount** column, as noted above by the red arrow.
6. After verifying that the **Selected Days** and **Due Date** are correct, click **OK**. A **Charges Report** will open as an Excel file for final review. This report displays only calculated charges. It does not include unpaid previous balances. Save this report for future reference, if desired; otherwise, close out of the Excel file once a final review of charges is complete.

7. Back in the RegWerks system, the **Class** window will still be open. Click the **Send Invoices** button at the bottom of the **Class** window.
