# Collect Fall Fees Faster
## With RevTrak's Fee Management

The best way to get your fall fees paid early is to assign them to students now. Don't wait! And don't leave it to parents to hunt for the fees they need to pay. With our Fee Management function, you can assign specific fees to students now, so families know they have to pay them.

With RevTrak, you can assign required fees (class registration, AP exam fees) and optional fees (yearbooks, parking passes) so parents know what they owe.

Request a demo with your implementation specialist and start assigning fees today!
